PROFESSIONAL SUMMARY

Results-driven software developer with 10 years of experience building and maintaining C# desktop applications in the postal services sector. Currently transitioning into data analytics, with hands-on training in Excel, Power BI, and MySQL. Brings a strong foundation in data-driven systems and a practical understanding of business operations — skills that translate directly into analyzing data, building dashboards, and surfacing insights. Eager to apply both technical depth and domain knowledge to a data analytics role.

CERTIFICATIONS

Certification in Data Analytics — Illinois Institute of Technology (US)

2026 (In Progress)

Entri Elevate, Trivandrum, Kerala

- Training in Microsoft Excel, Power BI, MySQL, and Python for analyzing real-world datasets.
- Performed data preprocessing, conducted exploratory data analysis (EDA), built data visualizations, and developed interactive dashboards to support data-driven insights.

PROJECTS

Healthcare Data Analysis — Excel Project | [GitHub Link](#)

- Analyzed healthcare datasets to identify cancer occurrence trends across patient categories and hospital charges over time, segmented by disease type and lifestyle factors.
- Cleaned and transformed raw data using Excel by handling missing values, removing duplicates, and standardizing categorical fields for accurate reporting.

SKILLS

Data Visualization Tools: Power BI, Excel (Pivot Tables, Power Query, Dashboard)

Databases & Querying: MySQL

Programming: Python (NumPy, Pandas, Matplotlib, Seaborn), C#, .NET Framework

Reporting & Insights: KPI Analysis, Data Storytelling, Business Intelligence

Statistics & Processing: Data Cleaning, Transformation, Exploratory Data Analysis (EDA), Statistical Analysis

Soft Skills: Client Engagement, Adaptability, Problem Solving, Team Collaboration, Time Management

WORK EXPERIENCE

Art Technologies and Software Pvt. Ltd.

Kochi, Kerala

Senior Software Engineer

December 2013 – Present

Led development and maintenance of enterprise-level desktop applications for postal services using C# and .NET.

- Spearheaded design and development of desktop application modules for postal operations including mail tracking, delivery management, and workflow automation.
- Led cross-functional teams to gather requirements and deliver reliable, scalable software solutions within deadlines.
- Architected and optimized existing .NET applications, significantly improving performance, stability, and user experience.
- Followed enterprise best practices including requirement analysis, design, development, and testing.
- Provided senior-level technical support and troubleshooting for live postal operation systems, ensuring zero downtime.

EDUCATION

B.Tech in Electronics & Communication Engineering (ECE)

2009 – 2013

Mahatma Gandhi University, Kerala
